

This is a detailed cadastral map of Faulk County, Texas, showing land parcels, roads, and water bodies. The map is color-coded by precinct: Brown (top), Purple (middle), and Green (bottom). Key locations labeled include Onaka, Sateca, Crestbard, Orient, and Rockham. The map includes a grid of section numbers and various annotations for land ownership and boundaries.

Where state and county, and/or MCD boundaries coincide, the map shows the boundary symbol for only the highest ranking of these boundaries.

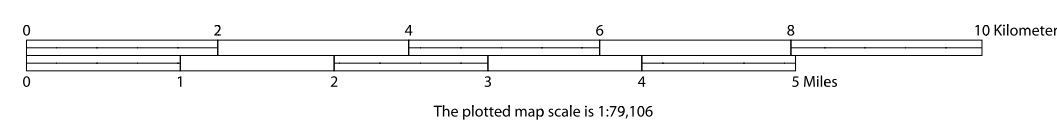

State and county names are labeled by their FIPS code.

- 1 MCDs are symbolized and followed only in the 12 strong MCD states: Connecticut, Maine, Massachusetts, Michigan, Minnesota, New Hampshire, New Jersey, New York, North Carolina, Rhode Island, South Carolina, and Virginia.
- 2 Incorporated place name color corresponds to the incorporated place fill color.
- 3 The full census tract code consists of six digits with an implied decimal point between the fourth and fifth digits. For legibility on this map, the leading zeros have been stripped and the decimal point is shown. To translate a census tract number on the map to a FIPS code, the missing zeros are needed to the left side of the number to reach six total digits and remove the decimal point before the last two digits.

Example: Census tract number on the map '33007' represents census tract code 033007.

Due to space limitations, some road names, along with other feature and geography names on the map, may not be shown.

The plotted map scale is 1:79,106
